Pykidz

A "Kideveloper" initiative

Why code?

Why Python?

Simple for beginners

Build anything

Install python

Is python installed?
Python versions

Python shell

Break!

The language begins!

Today's Pykidz class

- Programming is an essential skill

- Python is your simple yet powerful friend

- You can install python in your computer

- Python has versions

- Python shell is a window to talk to python

- Python can do calculations using "operators"

- Python "variables" make it easy to re use data and also make the data readable
